SAFETY DECISION 2020-08

Issue 02
Date of Issue: April 26, 2020

SUBJECT:
PROVIDE ADVANCED PASSENGER PROCESSING (APP) DATA TO THE NATIONAL ADVANCE INFORMATION CENTER (NAIC-UAE)

REFERENCE PUBLICATIONS:
N/A

INTRODUCTION:
Despite the publication of the requirement for APP (Advanced Passenger Process) for all passengers, including inbound/outbound/transit/transfer passengers and crew in accordance with UAE AIP GEN 1.3.4 and NOTAM A0905/20, UAE is still observing several non-compliances from non-schedule and general aviation air operators flying from/to the UAE.

This SAFETY DECISION is issued to:

a) require all non-schedule and general aviation air operators including ferry flight operating from/to UAE to ensure compliance with UAE AIP GEN 1.3.4;
b) inform all operators that such requirement, in the wake of COVID-19 pandemic, is of high importance to stop the spread.

This ISSUE 02 is issued to align this SAFETY DECISION with newly published NOTAM A0905/20.

REQUIREMENTS:
Flights shall not be permitted to enter the UAE airspace unless:

a) a flight plan (FLP) filled in accordance with CAR III, Chapter 2-, 2.20 and ICAO standards is submitted as per UAE AIP ENR 1.10. In particular, the FLP shall include type of flight (N or G) as applicable in item 8 of the flight plan; and
b) Advanced Passenger Processing (APP) data is provided for all passengers, crew and flight on-board. The data shall be uploaded a minimum 24 hours before the flight in (NAIC-UAE) System in usual cases and a minimum 4 hours before the flight in unusual case. APP is accessible through the following links:
   i)   for registered air operators: HTTPS://CARRIERS.APIUAE.GOV.AE/
   ii) for new air operators: HTTPS://CARRIERS.APIUAE.GOV.AE/UCP/SHOWREGISTERCARRIER.FORM
